

Welcome to the Course

Thank you for joining this course!

Before we begin, these are the basic requirements for this course:

Prior knowledge	This course requires familiarity with the basics of Python. While optional, having experience with Flask, Pillow, and Git can also be helpful.
Programs & setup	Students can follow along with Cursor. Students will need to install Python version 3.11 or later. While the setup of Cursor is covered in this course, the setup of Python is not. You can find basic setup information in the following resource: Python
